

JMP WHISPER FR

APPLICATIONS

Whisper sound absorbing panels are the perfect solution to reduce problems with noise including other unwanted sound in all types of indoor and outdoor environments. They also provide a safer work environment due to superior Fire Retardant properties. Passes both Automotive (FMVSS302) and Construction (DIN 4102 & EN 13501-1) Fire Retardant specifications.

TYPICAL APPLICATIONS:

- Construction
- Machinery
- Automotive
- Transportation
- Buildings
- Industrial

ADVANTAGES

- Moisture resistant
- Fire retardant class "1" (Automotive and Construction)
- Rigid structure
- Fabricate to any shape
- Fibre free, printable surface
- Recyclable

PHYSICAL PROPERTIES

- Whisper FR comes in both 25mm and 50mm planks.
- Whisper FR can be laminated to other acoustic foam as super silent composites as well as be cut according to customer specifications.
- Sheet sizes
 - 1200 x 2400 x 50mm
 - 1200 x 2400 x 25mm
